The Ascension of taking control

We are witnessing a cultural transformation and the introduction of a new way of living at a speed never before seen in history. Scripture says, Knowledge will increase in the end, and we will have to deal with these profound changes directly. If you have lived long enough and have been paying attention, you know that both good and evil are present in the world; it is evil that we must be concerned with, as it is a real and constant active force; it never sleeps. We watch fraud, corruption, lying, and stealing, all the qualities of sin and the devil, now gaining strength in our country and the world.

In the 60's, the saying was: have you been experienced, meaning have you turned on with hallucinogens. Today, it may be asked, have you been digitized? As we have now entered the age of technocracy, there is no turning back.

Research shows nearly half of all web traffic now comes from bots as synthetic content spreads. Much of what is now online comes from machines pretending to be human. Elon Musk has said he will do something about the large number of bots on X. As many as 64% of X accounts could be bots responsible for 76% of peak traffic. We find now from new Identifications on X that many of the websites promoting news come from other countries, some of which are our enemies.

Many are scamming the system.

The Industrial Revolution benefited people, though it seemed strange to them at the time. The question for us is, what will the technological revolution that employs AI do? MIT, Massachusetts Institute of Technology released a study that found that [artificial intelligence](#) can already replace 11.7% of the U.S. labor market, or as much as \$1.2 trillion in wages across finance, health care and professional services. [link](#)

If AI is so safe, why did we hear from OpenAI CEO, Sam Altman, declaring a “code red, telling employees on ChatGPT needing significant improvement in terms of user experience – including personalization features, speed, reliability, and allowing it to answer a wider range of questions. This is only the start of what AI is to be developed into, as each week brings more.

Shortly after Altman declared a code red, its latest model was released GPT-5.2, in a benchmark test, OpenAI said it outperformed industry professionals in tasks across 44 occupations, best yet at doing “professional knowledge work.” AI is reexamining everything. Many see Artificial intelligence as just faster, helpful tech, when it is actually restructuring our culture. A necessary question is: [how much](#)

[control do we want to give this technology](#) over our lives? And, do we have a choice?

We are in a race to secure control of this technology against other countries, especially China. How far is this going to go? As AI grows, human participation becomes smaller, as machines take control. We are engaged in this change that is taking place so quickly, it's hard to keep up with it all.

[Ex-OpenAI Scientist WARNS](#): “You Have No Idea What's Coming.” As one commentator said, what we can do that AI cannot do? Live without electricity...

Amazon, which created so many Jobs, is among the first transformative companies to leverage AI, cutting 14,000 corporate jobs. Their goal is to automate 600,000 Jobs. Artificial intelligence will help the company (and all companies) have a smaller ‘human’ workforce in the near future. With so many jobs lost, who will have the purchasing power to buy?

What of Digital money becoming the norm? With so much ID theft and counterfeiting, they will have to issue a lockdown soon to prevent our IDs from being stolen. Many say AI will solve this by issuing a digitally controlled system.

Will people look to AI to be the most intelligent option we have? Will classrooms be transformed to have AI teachers who are able to answer every question immediately?

And what of the singularity, which is the point of where AI technology growth accelerates beyond any human control? Few have considered the outcomes of there being no boundaries. Think about firefighters or police being AI robots, with the idea of no human being hurt? The possibilities of it being employed in everyday usage are endless.

[Alaska advances plans](#) for a far-reaching redesign of its myAlaska digital identity system. That would weave “Agentic Artificial Intelligence” and digital payment functions into a unified platform capable of acting on behalf of residents.

What does all this mean? Understand that Artificial Intelligence is [knowledge-fed input](#) from sinful man. What if it tells us one day it is not sinful, only

man is? That every decision it makes is for our good. Sounds like a theme to a sci-fi movie, except this is reality.

Congress’ 2026 schedule has recently come out, and they do [not work a full week](#); but work 115 days in the next year. With all this change, I suggest we further adjust congress’ schedule to be replaced by AI. As we may get more done with better judgments on the issues. That being a joke.

We have AI Jesus that some churches are using. In Bavaria Germany, Protestants attended a church service that was generated almost entirely by artificial intelligence. The ChatGPT chatbot led by four different avatars on the screen, two young women, and two young men, had controlled the service to 300 people in prayer, music, and sermons.

There is an AI App That Lets Users 'Talk' to Dead Loved Ones, that is facing some backlash. 2Wai’s new “HoloAvatar” tool turns minutes of footage into lifelike replicas of deceased loved ones, igniting ethical alarms over consent, privacy, and the commercialization of grief.

Many question whether these spiritual technologies are vehicles for demons to use? Of course, most of the scientific techno community does not believe in them so that they will ignore this caution.

While there are numerous concerns, there are heightened fears such as those on [MARK OF THE BEAST ALERT!](#) UN / WEF Documents Lay Out A Plan For A Planetary Dictatorship Controlled By AI! While I cannot vouch for these radical concerns, there seems to be wisdom and some prudence in avoiding them.

Turning control over to machines made in the image of sinful men

AI will remain in the top 5 stories in the coming years, as we live with it at the same time questioning its integration.

At one website which covers the new i.e. communism with an outrageous sense of humor [AI dispels fears of replacing legacy media: “Relax, I could never be this biased”](#)

The People's Cube dispatched a correspondent to interview AI asking it *"Will artificial intelligence replace us?"*

"I'm still learning. I cannot yet instantly generate identical talking points that magically appear on every teleprompter across 300 outlets before breakfast. For that you need a mature ecosystem of encrypted group chats, coordinated Zoom briefings, and midnight email blasts from headquarters. No algorithm can replicate that yet."

The AI also acknowledged its limitations in the area of professional arrogance.

"I can sound confident, but I don't have that special human touch where you know nothing about an issue, read one approved think piece, and still speak as if you are the final moral authority on Earth. That requires a journalism degree and a Manhattan ZIP code."

The machine went on to describe its struggle to weaponize every news story into an existential crisis.

"Sometimes a jeans commercial is just a jeans commercial to me," it admitted. "I don't automatically connect it to patriarchy, climate justice, and the end of democracy. That level of narrative integration is way too advanced for my neural circuits."

Before we parted, the AI assured us that legacy media appears safe.

So rest assured AI is confident that it is safe and that we will be untouched by its influences. Not a chance is this true.

The human rebellion grows.

At the same time these radical changes are taking place, both the great apostasy and a great rebellion in our country are underway. Many people want no accountability and are willing to go as far as needed to dismantle any law and order. This is the tension we are now facing in our country. This is the exact opposite scenario of what is taking place in other countries like England, where illogical law and order against its citizens is taking place. Our country, like theirs, has an exceptional amount of

criminal immigrants, even within the government agencies.

The former administration employed the Hegelian dialectic in its persuasion to ensure our country's safety. They said they had a vetting process in place, but they didn't tell us it wasn't being used. 5,000 national security concerns have taken place. Hundreds would be a lot; this is outrageous.

Regular people have been manipulated to oppose the move toward law and order by using a bleeding heart appeal, that the immigrants are looking for freedom. ICE is trying to remove illegal criminals gaming the system. Instead they want to remove ICE. If you remove the federal enforcers, who stands to gain? Criminal's, Anarchists, and revolutionaries that want insurrection.

As people are convinced to fight law and order having no idea what they oppose. For example in Minnesota it is said 95 % of Somali immigrants are citizens. What was recently found out is that over 50% are not, and over 95% are supported fully by the government. [The Legacy Media's Playbook of Omission](#). In fact, Breitbart News reports data [published](#) by the Center for Immigration Studies: [Nearly Every Somali Household with Children Is on Welfare](#). Corruption (\$) is seen everywhere in the news, and this is not the only state.

What we learn is that what is taking place are not mistakes but on purpose, planned. Consider that in the twentieth century more people were killed as a result of Communism than in all wars in the previous nineteen centuries put together. I have pointed out over the years the main way to take down the country is by the Cloward-Piven strategy found in 'Rules for Radicals' by Saul Alinsky (who gave kudos to Lucifer as the original rebel).

The strategy is to first overwhelm the system, bringing an overwhelming amount of illegal (criminal) immigrants into the land and increasing the national debt, which has been accomplished.

The Collective Cognitive Dissonance

The ability to cognitively understand basic issues seems to be vanishing in our population as many have difficulty applying what was once called common sense and deep critical thinking

The media's talking heads, even on the conservative side seemed to be living in a bubble of confusion.

I have to mention Candace Owen out of necessity, of whom I have so far written 2 articles on her speaking, on who murdered Charlie Kirk, without any proof she has named numerous people, (but not the one in custody). She is now accusing the President of France and his wife of having a hit on her. Yet we do not hear that our FBI is investigating what would become an international incident. She has one of the largest podcasts, with millions of followers who believe her every word. There is a contingent of discerning people reporting otherwise. Is anyone listening to the voices of reason? A few.

She allowed Russell Brand to interview her at her home, but she turned down Turning Point's invitation to be there live on air to defend her outrageous accusatory statements. See her being [asked pointed questions at her home](#). [Graham Allen](#) takes this controversy on (long but thorough coverage).

And then there is [Tucker Carlson](#), who has become an enigma. Who recently bought land in Qatar ([Quatrai minister interviewed](#)). Qatar backs Hamas, the Muslim Brotherhood, supporting terrorism. 'Israel guys' cover Carlson's [crafted speaking](#) from Qatar. We see that people are changing, sometimes overnight, but not always for the better. The list of trusting conservatives gets smaller daily. I know it's hard to find integrity in reporting on the Internet. Here are a few suggestions, Devory Darkins, Joe Pags, Jesse Kelly, and Prof. Nez (#Neznation) are a few sane voices to walk you through the news each day, contributing accurate, truthful reporting; there are others as well.

And what about the church? As the church goes so goes the culture ...the avalanche is already way down the mountain. The amount of blatant false teaching is covering the landscape is unprecedented. If one ventures on youtube you siphon through ten different teachings on nearly every topic, adding to the confusion. Confusion being the key word!

Islamization of a nation[s]

By now, anyone who has investigated Islam should know what its origins and GOALS ARE. America

is being engaged in a spiritual war more devious than the current state of America, and the world - [the Shift](#).

We have a number of cities that are flashpoints. Dearborn has a population of 110,000, nearly half are Muslim. [If you live anywhere in Dearborn, Michigan - This is what will wake you up out of sleep](#) as early as 5:00 am. They have the largest mosque in North America. Tensions are growing, [what we are facing in Dearborn Michigan](#) are physical assaults on Christians by Muslims that do not get a police report, some individuals have said they want them to be Charlie Kirked. One person in protest went around hitting Quran with bacon publically, which does not help calm the antagonism.

[The Islamic Takeover of the UK](#) - Nate Friedman shows and explains what has happened to England. The question before us is, US. A British YouTuber Warns that [a Massive Civil War Is Going To Happen in Britain](#). (he is not alone in these expectations).

There is a man who claims to be Islam's Mahdi ([Is he actually dajjal](#) - Deen show). I wrote a [two-part article on his appearance](#), as many are saying he is the antichrist. I parse this with his own words; for now, he is showing himself to be another false prophet, not claiming to be a Christ.

Those who protest Israel's existence and promote Hamas on American soil, we can call them Hamasans. What we hear from them is to globalize the intifada, which places Western Civilization in jeopardy. This allows an Islamization to do what communism cannot. They seem to everywhere, even in Australia. [Has Australia become the new epi center of Antisemitism?](#)

At the same time, Islamization of the West takes place, Islam faces its own challenges by the internet, as knowledge increases, many Muslims are leaving and converting.

Look at all the murdering going on in the name of their god in Africa that is receiving evil cleansing by their religious zealots. Africa has been overwhelmed with Muslim immigrants. The UN blames Israel and sympathizes with Hamas, as ISIS

targets Christians in locations like the Congo; their villages are torched in nighttime raids. In Sudan and Nigeria, they are being murdered by the thousands, as the nation's Muslim president ignored it. In Syria, Christians and other minorities are being hunted and massacred, and hundreds of women are abducted. All is rooted in their radical Islamic expansion. Africa is being cleansed, and yet Israel is to blame for genocide? Funny how the news is only on Gaza. How many nations and people groups are experiencing genocide from the hands with the sword, which is Islam, and not Israel?

Evil is being perpetrated on a scale we've never seen in our modern times; thousands of Africa's churches are pleading for intervention as they face daily persecution. They need us to be their voices and produce action.

Why are the 'refugees,' immigrants not seeking asylum in Muslim countries? And what exactly [is their plan](#)? A California Imam [Warns of Alleged Global Islamization](#). What they won't tell us publicly is often spoken by the few; we need to pay attention. [What Muslims Chant When Radical Imam Calls For A Mass Global Jihad!](#) A global takeover is underway, and it is done in small steps, not like an army invading, as they once did in the past.

There are 50 countries with Muslim populations and Sharia law. No Muslim country in the world has religious freedom as we do in America. You cannot be an American if you want Sharia law because it is contrary to our Constitution. [Sharia 101: Islamic Law is NOT compatible with Western Civilization](#).

Their Religion interferes with freedom; Judeo-Christianity does not. We look to have law and order under our constitution.

A short and great [Harvard debate](#), which should be a reminder for us all today. We allow those to practice other religions to assimilate. But when it comes to Islam, one cannot build a country and better it when they want to tear it down.

[What has Islam accomplished](#) and done to the nations throughout history? America is the target of Islam; they have made it clear. They know that if we diminish or remove our support for Israel, they

will have difficulty surviving in a world with no one backing them.

There are all kinds of Jihad in Islam, but they will always speak of it as the internal struggle, which is the least of all. Islam is practicing asymmetrical warfare, if they did not continually fight against a common enemy, Israel and the Christians, they would fight among themselves. They immunize themselves by practicing taqiyyah on who they label as enemies, which is a purposeful misleading and lying (like the Devil does).

[FBI Agent: "People Have NO IDEA How Serious This Is Going To Be..."](#) Let's not get distracted from the main things, as there are many subjects on the table that we can debate that yield no real conclusion. We need to accept that what was once present in our culture, logic, and reasoning for determining what makes sense as the truth is no longer a valid tool; it's all about feelings, which cannot determine truth.

Abraham's Covenant

The covenant of Abraham is constantly in the news, but people do not notice the nations orbiting around its prerequisites because they lack knowledge of the Bible. In fact, those who know some of the Bible purposely ignore this, alter it, and disregard its consequences.

Years after it was established with Abraham, Isaac, and Jacob, we see it in action with a Gentile prophet named Balaam, who had knowledge of the true God but had not given his heart fully over. Money was offered to Balaam from King Balak of Moab to curse Israel as they were traveling to the Promised Land. Balaam said he could not curse what God had blessed. Balaam said he could not go beyond what God spoke, but he got worn down and he eventually sold out for money (Numbers 22:18). Peter spoke of "the way of Balaam" as one motivated with greed, "*who loved the wages of unrighteousness*" (2 Peter 2:15) and Jude addresses the dreamers who "*have run greedily in the error of Balaam for profit.*" The church at Pergamos held "*the doctrine of Balaam*" (Revelation 2:14). Money was offered to Balaam from King Balak of Moab, the enemy of Israel. Balaam had already refused to go with the princes, yet Balak continued to plead to Balaam, each time

offering more money for him to curse Israel. God did allow Balaam to go, but he had to tell the king he could only speak what God spoke. Despite this, he tells Balak, *'The word that God puts in my mouth, that I must speak'* (Numbers 22:38), He kept blessing them.

Balaam's dilemma, the money that was continually offered had a great attraction on him, he desired the reward, but he could not curse Israel. But he could hold out for only so long.

Finally Balaam told Balak how to stumble Israel by bringing harlotry into the camp, by seducing them to marry Moabite women and have them commit spiritual adultery. Balaam was not a good guy gone bad, he was always half-hearted. However, God used Balaam to prophesy one of the greatest scriptures of the Messiah, still, Scripture has nothing good to say about him.

Balaam ended up using prophecy as a business, he was a prophet who favored money. This is why he is spoken of in such bad terms in the New Testament. Like many who call themselves prophets today, corrupt ministers who desire and chase after profits, they will use their position to find a way to get a reward. Some people actually charge for their personal prophecies, something that God was trying to prevent Balaam from doing. Today, you can even pay for your prophecy by credit card, which would probably cause even Balaam to blush. One can only wonder: If there was no money involved, would many of these prophets end up doing something else? It is then in chapter 31 that we see Balaam is killed by the sword.

When Israel entered Egypt as slaves, God set it up for them to understand what freedom is. The covenant promise to Abraham was seen in action when he struck Egypt with plagues; the last one was their firstborn killed, repaying what Egypt did to Israel with their firstborn.

We need to apprehend prophecy correctly for the history of Israel's past, present and the future to be understood. Without understanding the Abrahamic covenant with Israel, you cannot know how God relates to humanity and how the last days culminate.

As Balaam stated, he cannot curse what God has blessed. Yet today, a certain religion has influenced the world to do just that, which does lead people to reject the Messiah who came from Abraham.

God's covenant people are temporarily not connected to the Olive tree, Paul explains the reason in Rom. 11:28-32 *"Concerning the gospel they are enemies for your sake, but concerning the election they are beloved for the sake of the fathers. For the gifts and the calling of God are irrevocable. For as you were once disobedient to God, yet have now obtained mercy through their disobedience, even so these also have now been disobedient, that through the mercy shown you they also may obtain mercy. For God has committed them all to disobedience, that He might have mercy on all."*

What is coming?

There will come a time when everyone on earth must choose, and that choice will affect their eternal destiny. A counterfeit will appear into our world with claims to solve all our issues, political, financial, social, and religious. This begins the time of Jacob's trouble. *"There will be great tribulation, such as has not been since the beginning of the world until this time, no, nor ever shall be"* (Matt. 24:21-22). For this to happen Israel had to become a people of their land again.

For hundreds of years, Bible scholars, pastors, and students of the word knew the scripture would be fulfilled, the Jews would be brought back into the land. Since 1948, this has been well underway. Everything is said and done to prevent what their establishment will bring. Because once the third temple is built, which Jesus prophesied of in Mt.24, the end comes upon us like a freight train.

A few examples of those who spoke of 1948, Thomas Boston: *"There is a day coming when there shall be a national conversion of the Jews or Israelites. The now blinded and rejected Jews shall at length be converted into the faith of Christ, and join themselves to the Christian Church," Have you any love to, or concern for the church, for the work of reformation, the reformation of our country, the reformation of our world? Any longing desire for the revival of that work now at a stand; for a flourishing state of the Church, that is now under a*

decay? Then pray for the conversion of the Jews.” (Sermon in 1716 “Encouragement to Pray for the Conversion of the Jews.”)

In 1840, M'Cheyne went to Ulster to plead for the interest of the Jews, which stirred up great interest. The following year, the Irish General Assembly resolved to establish work among the Jews. They established missions in Syria and Germany, believing “missionary enterprise is one of the means to bring about the restoration of Israel in accordance with the Scriptures” (Minutes of the General Assembly. 1840-1850).

“To the Jew first. Converted Israel, he declared, will give life to the dead world....just as we have found, among the parched hills of Judah, that the evening dew, coming silently down, gave life to every plant, making the grass to spring and the flowers to put forth their sweetest fragrance, so shall converted Israel be when they come as dew upon a dead, dry world. The remnant of Jacob shall be in the midst of many people as a dew from the Lord, as the showers upon the grass, that tarrieth not for man, nor waiteth for the sons of men.” Micah 5: 7 (Memoir and Remains of R. M. M'Cheyne - 1966 reprint, p. 489).

For over 1,900 years, Israel was not a nation; they were in diaspora from their land after Rome's takeover, ending with the destruction of their temple in 70 AD. This became the longest period in history during which they were removed from the land.

Over 2,700 years ago, Isaiah 66:8 says, In one day, a nation will be born. *“Who hath heard such a thing? who hath seen such things? Shall the earth be made to bring forth in one day? or shall a nation be born at once? for as soon as Zion travailed, she brought forth her children.”*

As far back as the 1600s, Pastor William Torrey, spoke that there is, *“a Time when God would gather them out of all Countries, and bring them to their own land ... which is yet future”* (A Brief Discourse concerning Futurities or Things to Come, written in 1687, in Weymouth, Massachusetts).

[Many pastors in the 1700-1800s](#) saw this birth soon to take place and wrote about it. Pastor Samuel Willard, Boston; acting president of Harvard University, *“There hath not as yet been a full*

performance of it [the restoration of Israel], but that it is to be waited for, when that General Calling in of the Jews shall Commence, of which we have a satisfying account in Rom. 11 ... that happy time which is expected by the Church of God, when all Israel shall be saved” (The Fountain Opened: or, The Great Gospel Privilege of having Christ exhibited to Sinfull Men, 1700).

Many did not believe God's word on Israel being restored as a nation or people; some still don't. Before his death in 1921, Dr. C. I. Scofield wrote, *“If God has decreed the reconstitution of the nation of Israel upon the sacred soil of Palestine, no reluctance of the people will delay it one hour.”* In spite of what many think of Schofield (and they hate him), he was right. It was always in God's timing when this would take place. After a great suffering, known as the holocaust, they were admitted to be the 59th member state of the United Nations. On May 14, 1948, the Jewish people formed the sovereign State of Israel, ‘born in a day,’ foretold in Isaiah 66:8. It took 11 minutes after their nation's rebirth for President Harry Truman to be the first world leader to recognize the new state of Israel. I doubt it would be the same if it was today.

This birth will happen twice, first physically, then spiritually when they will be saved as one nation, resulting in Ez. 37, the dry bones prophecy. This occurrence of Israel's statehood cannot be dismissed as insignificant or coincidental. It is God's hand at work in history to fulfill what He has said in Scripture thousands of years prior, which fits like puzzle pieces into his prophetic plan for Israel and the nations in our day.

What is spoken will take place

In Matthew 24:4-51, Jesus' disciples were admiring the building of the temple from a distance. Jesus

responded to a question they asked Him, saying, *“Do you not see all these things? Assuredly, I say to you, not one stone shall be left here upon another, that shall not be thrown down.”*

What Jesus spoke took place approximately 40 years later, in 70 A.D. The reason for the destruction of the Second Temple was their nations rejection of him as their Messiah (misled by the religious leaders) when he was living among them. After pronouncing 7 woes to the Scribes and Pharisees, Jesus declared their house would be left desolate (Mt.23:1-38). This rejection God told them long before, first through Moses. Moses tells them in the beginning of Lev. 26:1-13 what will take place if they obey God, and then he takes the rest of the time (vs.14-39) predicting what their disobedience to God would yield them. Lev. 26:33 *“I will scatter you among the nations and draw out a sword after you; your land shall be desolate and your cities waste.”* Moses’ prophecies even before they entered the land, v.38. *“You shall perish among the nations, and the land of your enemies shall eat you up.”* The Jews then were scattered all over the world as a direct result of their rejection when Jesus, their Messiah, came to them in their land as the Son of Joseph.

Scattered, being evicted from nearly every country, the pogroms in Russia (1800s) helped move forward the idea of a homeland for the Jews for their survival, as the world's policy continues for the endless persecution of God’s people. Why did this take place throughout history? Because when God made a covenant with Abraham in Gen. 12, with his people and the land, promising the Messiah through them. The enemy of God sprang into action and has been gaining strength ever since, especially among the religious in the region this is focused on.

So we are told to pray for the Peace of Jerusalem; this is Israel’s only hope, and it will be answered only by the Messiah, the Prince of Peace, returning. Only then will there be true peace for them and all the world.

The question is, how much more can be fulfilled? Nearly all that is spoken of is already in place. Once the last portions are put in place, the pieces will fall like dominoes. Are we preparing? Are we ready as

the great shift occurs? The world comes under a delusion that God sends because they refuse to believe his truth (2 Thess.2); ironically it is being spearheaded by a competing religion that claims to be submissive to God, challenging his covenant.

If someone handed you a clay hammer to hammer nails with, you would immediately recognize it is not a hammer; you have used a real hammer, and you would see it is useless. But what if you went ahead and used it to hammer in a nail and convinced yourself it worked? That is what is called a delusion; you are not in reality. So it is with the world.

With all that is taking place and what is to come, we have this hope, and it is within us, we carry it wherever we go.

“Now hope does not disappoint, because the love of God has been poured out in our hearts by the Holy Spirit who was given to us” (Rom 5:5).

Paul later explains, *“For we were saved in this hope, but hope that is seen is not hope ; for why does one still hope for what he sees? But if we hope for what we do not see, we eagerly wait for it with perseverance”* (Rom. 8:24-25).

Rom. 15:4 *“For whatever things were written before were written for our learning, that we through the patience and comfort of the Scriptures might have hope.”* We continue to be assured of this hope as we continue to read and learn God’s Word.

Jesus is our personal hope, but he is the hope for peace to our world, to be in their hearts before he returns. Which is what his birth in coming into the world is about.

Have a wonderful Christmas.

May you know the grace of our Lord Jesus Christ,
Mike Oppenheimer

We have now added [a video section](#) to the website, which is being added daily.

Please pass this newsletter on as the information is crucial.
