

Dangerous leaders who are forming a dangerous world

Danger seems to be everywhere, we live in perilous times as the Apostle Paul penned his prophecy by describing the theme of our loving self. Self brought mankind the sin we all have to deal with as the Devil told Eve you can be as God. Since then so many act like they have his authority, especially in government.

Watching the news is finding ourselves living in Matthew 24, what is said is unfolding.

What are the most dangerous things going on in America and the world? Politics has become very dangerous, it affects the way we can live in our country. For example, in the once great city of San Francisco, Target is being targeted, by thieves <https://twitter.com/i/status/1792284091016151256>

Our current president took 94 executive actions in his first 100 days to dismantle our border security, where up to 15 million + illegals (that we know of) came into the country with no hindrance and went where they please.

But they are not just flying illegals to the destination of their choice as reported, but now, those who were already deported under the former administration are being flown back into the US. that's about as insane as it can get. But that's the quickest way to take down a country, AKA 'Rules for Radicals', via Alinskyites. It is being used the world over, as both the UK and France have turned a hard left which helps bring in the NWO, as communists and Jihadist burn the cities down and attack police <https://twitter.com/i/status/1810092063909892162>

The Pope is all on board with open borders everywhere, except his own Vatican City. <https://www.thegatewaypundit.com/2024/05/commie-pope-francis-claims-stopping-americas-illegal-border/>

56 percent of registered voters say most, or all illegal aliens in the US should be rounded up and kicked out of the country, according to a new Reuters/Ipsos poll. Yet, we are told by the experts there are "40 percent fewer people coming across the border illegally" as compared to when Trump was President; can anyone believe this as fact?

As we watch danger increase, who do you think is the most dangerous man in the world today? Usually, it is the one with the most influence over the people of a powerful country, he may wield his power and influence by money or position, by military strength.

One of these power brokers just stepped down from a leadership position but will still be there to actively formulate their Worldwide agenda, Mr. Klaus Schwab. His second in command is a Marxist atheist who aggressively speaks out against believing in God, and continually speaks blasphemies. Yuval Harari mocks and denies the bible, in its place he wants a religion that will come from Silicon valley and technology, a new god. He calls people 'a useless class,' wants mass removal of humans to be replaced.

Schwab's cards are on the table facing up, globalism's agenda is out in the open, AND we need to take what they say seriously. The 2023 World Governments summit, the globalists [told us that there would need to be a "shock" event](#) in order to usher in a new world order.

Reported by Technocracy, his opening remarks, at the WEF's Annual Meeting of the New Champions, also known as the "Summer Davos," in Dalian, China.

Shwab "praised China for its economic policies, which are seen by the globalists as the model of top-down centralized planning in a high-tech surveillance state run through smart cities, smart EVs, smart homes, smart appliances, smart meters, and AI, digital IDs and CBDCs, all of which hold one thing in common — they come with on-off switches not under the control of the end user, which is we the people. In their ideal world, we live as slaves at the privilege of our masters. We get out of line, they can cut off our electric power, our electric car, our electronic digital money, everything.

Schwab told the elitist participants gathered in China that they must "force" humanity into a "collaboration" with the unelected WEF. This is why Schwab told his globalist comrades at a previous meeting over two years ago to expect an "angrier world." When you force people to live in ways that controvert their best interests, it tends to make them angry! They know their policies related to a green economy, perpetual wars and severe restrictions on food production will be extremely unpopular and cause civil wars on top of the world war they already have planned.

Schwab stated: "To drive future economic growth we must embrace innovation and force the collaboration across sectors, regions, nations, and cultures to create a more peaceful, inclusive, sustainable, and resilient future. At this critical juncture the active participation of all stakeholders is essential to ensure a sustainable development path."

Force the world to have peace is not the way any rational person would introduce this concept. We are watching this take place in America, and understand it has been planned for a long time.

Yuval Noah Harari says if President Trump is elected, "It is likely to be the death of what remains of the global order." <https://x.com/Bubblebathgirl/status/1813257537392611699> We can only hope he is right.

If you DO NOT see the world aligning with the prophecies in the Bible you are being set up to be absorbed into the new global system being developed, whose intent is to make everyone equal with the lowest common denominator.

The Great debate

Biden has become successful at being unsuccessful. They throw around the term 'democracy,' but what do they mean by democracy? It is often their go-to topic after accusing the opposition of racism, there's is a conditional democracy, wherein one side's choice (theirs) overrules the other because they do not consider the other side as valid. The other side is 'we the people,' as the country is a constitutional Republic, not a democracy.

Blunders are now accepted as an excuse; he had a bad day, its just a debate, nobodies perfect. I suggest that people watch his wife help him down the small steps afterwards to see the worsening condition we have all been watching for years.

Biden's campaign chair is insisting that his cognitive capabilities are as "good as ever." Which tells us that these co belligerents are either blinded by loyalty to a parties agenda or their neurons on not firing on all points.

The Debate went exactly on cue. Now they (at least some of them) admit the man they claimed had so much energy and is sharp behind doors is unable to do the job out in the open. The early date was set for the debate before He became the official candidate was all planned by those behind the scene to have him removed, for it is a difficult matter to do this. What makes this intensive is that we now have national security threat on our hands, our president, who is in cognitive decline and has the nuclear codes. That's the situation we face and it is serious with the world going up in sporadic flames.

While both men do not speak accurately on everything, I would have to say after looking at the fact checkers, they are more biased than the candidates. When you find that presidential historians 158 of 159 say Trump is the worst president in our history it seems that something is seriously wrong with all of these people. You may not like his personality, or his blatant comments but if one looks at his accomplishments, this is just not accurate. [Time To Fact Check The Fact Checkers](#)

A fact you probably will not hear is that far-left masked militants were prevented from rushing to the CNN building to interfere in the presidential debate.

The media continually covered up Biden's inability to do his job and then on a dime turned on him because they were told to do so. There are certain men (the power brokers) who act like the wizards of Oz behind the curtain dictating the how and the when, we now are in a power struggle with a mans ego and 'these other men's' egos. But we know who the real wizard of Oz is.

As I write this I need to add a caveat that much of the reporting, or the expansion of it comes mostly from untrustworthy news sources, the same ones that had been reporting the lie that the president is fine. That what everyone was seeing were fake videos, which is no longer a tenable argument as everyone has seen the real Biden in the debate and afterwards; now they are paying attention. Cheap fake videos were the argument the week before from the NY Times, who were leading in this propaganda. They made such an abrupt stop in their support that most got whiplash. But they did the same thing for him to be elected, reframing any story that could damage him, even if it were true, they were telling the public it was not (i.e. his son's laptop), its all par for the course as the wizards pull the strings in their puppet show.

In the meantime 'We the people' are the ones to suffer from the lack of moral, ethical and accurate reporting. Because these sellouts to a party want power. As Mark Levin accurately surmises 'The Democrat party are not American,' how can a socialist, a communist, a marxist etc. honestly hold to the constitution and rule of law when their ideology rules over their lives?

Country-wide Democrat governors met with Joe Biden and Kamala Harris at the White House for support, and many in the party and the media want ol' Joe to step aside. They are split, even

Hollywood Democrat Mega donors are split. Some are standing by him and support his decision to stay in the race. Not considering if he this mentally compromised what would happen in the next years.

Everyone needs to stop making this all about Biden, it is really about the Democrats who are all like Biden, or worse in their goals because they have their faculties and still side with his policies.

#1 podcaster JOE ROGAN recently commented: MODERN DEMOCRATS ARE IN A CULT *“These people are deranged. They’re no different than the Manson family.”* This is something I have been saying for years, the Democrat party is the largest (political?) cult in America.

Here is the problem, they are having Biden removed for the wrong reasons, which will later protect him against charges for all his criminality (recent and before). Surely they will come up with a diagnosis that will elicit compassion on Biden who has allowed his wrecking crew administration to do the work to demolish and demoralize America.

With all this taking place it does not matter who is the next president, those who are monitoring this infiltration say we will be attacked from within, as this was the main purpose for bringing immigrants in without a basic check on who they are. It only takes a few terrorists to cause a catastrophe (we have caught over 250). We are told not to be concerned there is no purposeful shift <https://www.thegatewaypundit.com/2024/06/conspiracy-no-more-explosive-undercover-footage-reveals-bidens/> Not to mention all the new diseases being introduced because of a lack of scrutinizing those entering the country. Expect unusual reports on this as diseases will have large increases in the coming months.

VP Harris will most likely become the new frontrunner unless they replace the whole administration. She has openly agreed with everything Biden has done. This will only compound the problems in play and add new ones to take the country further to the edge of the cliff. Will we be watching the downfall of our Republic in slow motion?

The current President said of Trump we must stop him, he *“vows to be a Dictator on day one.”* VP Harris in trying to form fear in the people said: *“This is probably the most significant election of our lifetime” because Donald Trump intends to “weaponize the Department of Justice against his political enemies”* How does one seriously say this when it is they who have already been doing this for years? And at the same time call for a halt as we are told there is no place for violence, (statements within this speech were inaccurate). Saying this for years incites people to do what we have just seen on 7/13. And those on the left continue to speak violence.

This is what Marxist/communists do; they ALWAYS accuse others of what they are guilty of. It’s called employing the Hegelian dialectic. They all know what’s coming to them if they lose, they will become accountable, law and justice may possibly occur. Maybe.

Contrary to what is taking place Biden does have his cognizant moments, where he says what is not to be heard, such as, *“We have put together, I think, the most extensive and inclusive voter fraud organization in the history of American politics.”* (October 24, 2020) <https://www.foxnews.com/politics/biden-voter-fraud-organization-video-gaffe>

Did anyone pay attention when this was said? No, only a few. Is it true or not true? We see the people in the media continually lie, and they are very creative as they lie about their lies, turning even the truth into a lie, for they have no truth in them like the one they follow.

The hard facts are that if Trump did not lose 2020, he and most of us may not have known how bad the elected (and unelected) people in government are, how evil has taken the reigns of our country in so many ways. Their own words show this. Now he knows and has become dangerous to the left as he may upset their plans.

No one should be surprised at what just took place, especially the timing just before the Republican Nomination. I will refrain from all the statements made before the attempt saying to take the former president out.' Its because of whose rhetoric? A Volunteer fireman is killed protecting his wife and daughter and others are wounded, and now everything has changed. This begins a very different era we have now entered in America.

Most experts say this was an easy shot, there is no better explanation than the grace of God was there for Trump. Let us continue to pray for him and our country.

We have those who rejoice at the attempted murder being unaccomplished, others are voicing their dismay that the shooter missed. We would be in a very different world if this took place. So many have been saying [this is coming](#) (including us for over a year), because it's obvious. They have thrown the kitchen sink at Trump, the only thing left is assassination. After all, if everyone shows up He just may win the election. Trump asked for extra Secret Service protection only to be turned down [Democrats voted to strip him of Secret service](#) detail.

Everyone is perplexed how this could happen, where was aerial surveillance? The head of Secret service security says there were no credible threats? Really? It's all over the internet! They are asleep at the wheel. Then we find that the Secret Service uses diversity (DEI). For what it's worth [investigations will begin](#) on all kinds of matters related. [This article](#) has some points to consider, though some are hard to accept. What happens when those who have no common sense lead us...Attendee says, [they Left a Clear Line-of-Sight](#). This was indeed a failure in protection. The FBI will investigate; which brings us no confidence as we have seen their record.

Certainly, there are hostilities on both sides but nothing on the conservative side compares to the left. Most people think communism was founded by Marx and others who were atheists. No; Marx became a Satanist (read his poems, he knew God existed and that he was going to hell). Those involved today who follow Marx are the same in spirit. Willing to see it all burn, just as it was portrayed in the Batman movie when Alfred turned to Batman saying "*Some men just want to watch the world burn.*" That is who the communists (and Globalists) are when they do not get

their way! What we are seeing is the left being as kind and compassionate as they can be. The headlines from the media are as disturbing as what happened. Disgusting, ugly comments of spin and lies are issuing from the media. This is no longer (extreme) politics, we have entered something else. This is nothing like what we have seen as they divide the culture even more after this. A realignment is being caused, where it end up is hard to say.

Biden will be gone only if he is forced out. Not because they love the country but because of the power seat[s] they want to hold and control.

They are persecuting whistleblowers on anything they can, Covid, voting, especially those that speak out on against promoting trans, as the government supports all gender affirming surgeries, that destroy thousands of lives, perpetuating a fable that you can be a different sex or that there is more then two. They live in an alternate reality.

Biden's Defense Department [Labels Pro-Life Organizations as "Terrorist Organizations."](#) This move is unsurprising considering the reversal of Roe v. Wade.

War is on the agenda

It's obvious the globalist power brokers want war, why else would they leave such a huge arsenal in Afghanistan for the Taliban. These are not mistakes but purposeful.

The people running the governments are heading the world to war. I know we don't like to hear this but it must be said, that war is on their menu, I'm not being hyperbolic. The war that was cold with Russia is now becoming hot, De-escalation is not the goal. We have also been in the shadow of WW3 for some time, as Islam is growing more hostile not having to do only with Israel but they have become the dividing force in many countries (i.e. England, France).

Division is everywhere and has now become dangerous

Politics is the secular life of a country, it is what everyone lives under. Take for example Communism or Marxism, once a country goes with this ideology they ride it out until the bitter-end, just as Karl Marx did with his own life. Andrew Breitbart said politics flows down from culture, which seems to be the case, as our culture is falling apart because of the education the youth have received. The NEA is run by woke individuals and communists, who are [very active](#) as they fight for the control of the education for the children.

I'm not trying to stoke anyone's fire but only report what is taking place, and it is not healthy for anyone.

The legacy media is the hotspot for culture change, they are trying to control the narrative. So much is introduced to change or destroy the culture, this is a massive attack on reality. Take for example, boys can be girls and girls can be boys challenging the history of humanity. This is an intentional perniciousness. If a boy is being convinced to be a girl this confusion can certainly lead to becoming suicidal, at least that's what used to be said.

[A General speaks out](#), that we are at war with a treasonous establishment.

As Trump has said they are after you, I'm just the first in the way. There are 72 Types Of Americans That Are Considered "Potential Terrorists" in Official Government Documents (technocracy.news) You are a threat to democracy if you do not agree with the new Demorats goals, if you who support the constitution even the Supreme Court, Republicans independents and old time Democrats, you are not on their side, the side of change.

We have Major hotspots in the world soon to collide in face-offs. As Ukraine and Russia continue to clash, the Middle East is near going up in flames as Hezbollah continues to send rockets into Israel, Israel bombs several Hezbollah targets in southern Lebanon in retaliation... Iran is warning that there will be an "obliterating war" if the IDF enters southern Lebanon to fight Hezbollah. Hamas, Hezbollah, the Houthi rebels in Yemen, and numerous other groups in Syria and Iraq will become involved.

U.S. military assets are being moved closer to the region. The current administration is seriously considering US military contractors into Ukraine for the first time in a limited capacity, regardless of Putin's warning that this will bring war to the US.

Control of a population

No fair justice - no country, that is where we stand. The same for the church, no truth proclaimed, no church. Clearly, these people forging the changes are amoral and want anyone with the same immorality to be the norm over them.

Along with all this that has taken place are the [51 former intelligence officials who signed](#) and published a [letter](#) that denied the contents of Hunter's 'laptop' (now being used in his trial against him) claiming it had "all the classic earmarks of a Russian information operation.

What this means is that everyone one of these so called intelligence officials were not doing their job, or worse, they conspired together to stop Trump (as it was said by an FBI agent in 2016 and failed.) Remember, so many called for his impeachment the very day he came down the elevator to announce his presidency. Why?

Its time to get serious, America is under attack from various angles, it is our country! They claim it is theirs but clearly, by their actions, they show they don't care.

Democrats Slam Popular Voter ID Bill as being Racist and Xenophobic, no voter ID for illegals, they can all vote. That is what they think of the laws of our country. Communist will circumvent anything to get to their place of power. They have a saying Any means to hold power, or to take it.

It is said the actual voice of America is said to be heard on Nov. 5, by the people. If you think the election will decide our direction, you're numb to reality. We are way past elections determining what the citizens want; people need to wake up. The voter rolls have not been cleaned up. We are watching the Constitution being shredded piece by piece.

Still those who stand up can occasionally find justice. Take for example New Jersey Court Throws Out 80 Charges Against Brave Gym Owner Defying Gov. Murphy's Tyrannical Lockdown covid Orders.

Cyberattacks against water utilities across the country are becoming more frequent and severe, the EPA agency announced. Just as there were numerous fires to our food supply. Over 60 american banks chains are insolvent.

“Everyone who willfully denies the impacts of climate change is condemning the American people...they're either really, really dumb or has some other motive,” Biden said.

Then he spoke the silent part out loud. *“We've invested billions to enhance our power grid. Expand energy shortages so that lights, air conditioning, refrigeration, and internet stay on during heat waves and other climate change...”* Biden said.

Israel and the world

If you don't want Israel protecting their people from attacks - you are for Hamas, and people do not trust you protect them either <https://twitter.com/i/status/1799925588586893440>

Hamas is **designated as a terrorist organization** by the United States, the European Union, and Israel. In 1988, Hamas published its **official Covenant**, calling for the annihilation of Israel and the killing of all Jews everywhere. Hamas, is anti democratic, has not held elections since 2006, when they took full control of Gaza in 2007 following a violent conflict with the Palestinian Authority.

Hamas uses Gaza as a military base launching attacks against Israel, including rocket fire and other militant activities. Palestinians teach their children that Jews are less than human and must be exterminated, they are given toy guns and suicide vests to play with.

Hamas terrorists work as or pose as humanitarian aid workers. Their children (those who are 18 or under) are found to attack and kill Jews are rewarded. They even use them as shields.

The international community has condemned Hamas for its numerous suicide bombings, rocket attacks, and other acts of violence targeting Israeli civilians. But they condemn Israel for responding at their attacks.

1964 the PLO spoke of Israel's annihilation, that is 3 years before there was any settlement.

Peace was signed and they gave up Gaza in the pursuit of peace. Israel has given up more land in the pursuit of peace, it has not worked because they are not dealing with rational people. Neither Egypt nor Jordan want the people from Gaza. They are not interested in living alongside Israel, they want Israel annihilated. We are told the Palestinians are not involved in what Hamas is doing. Is it possible for Palestinians to live peaceably with Israel, Israel cannot live peaceably with Palestinians as long as Hamas is in charge of their leadership—and that is all we need to know.

Of all the proofs offered in the Bible for its veracity this could be one of the strongest

Does God speak through events and circumstances? I'll let you decide

Now that we learn what is taking place let me transfer all that we are seeing and hearing to the church. There is a blind loyalty to false teachers that I find staggering. Most of the church is represented by false teachers, like Benny Hinn who continues on in spite of his feigned repentance and sordid reputation. We have false apostles and prophets everywhere. They have even tried to explain themselves and apologize [for prophesying wrong](#)

All that has taken place reminds me of how many spiritual snipers we have in the church. You are their target, making disciples after themselves, to transfer your money to their bank by false promises. The activity we see in politics is no different with the false teachers allowed to

introduce their false doctrines to mislead the sheep. It is the same false spirit at work in the world and in some churches that are tolerant, that refuse to ‘test all things.’

So if the church has the actual truth and is unaware, can we expect more from the world? We are to be the light of the world, the truth that the world sees before Jesus returns.

There are things about to take place that will make our heads spin...in both the world and the Church. This is the beginning of a very bumpy ride. All I can say for us is to stay on course and keep our minds in the Scripture and our hearts right, yearning, watching, as we look forward to that day He comes for us.

Jude 24 *“Now to Him who is able to **keep you** from stumbling, And to present you faultless Before the presence of His glory with exceeding joy”* How are we kept? By faithfulness (Gal.5:22 Mt.25: Lk.19:27; Rev.17:14) *“holding fast the faithful word”* (Titus 1:9.)

Lets remember, Heb. 4:13 *“And there is no creature hidden from His sight, but all things are naked and open to the eyes of Him to whom we must give account.”* *“For we must all appear before the judgment seat of Christ”* (2 Cor. 5:10-11.)

God will have the last word and determine the end of all things. No one gets away with the evil they do, and we are assured those who do good ‘in Christ’ will be rewarded.

May you know the grace of our Lord Jesus Christ,
Mike O.
